

# INDUSTRY SPONSORSHIP AND EXHIBITOR PROSPECTUS

THE SAN DIEGO ARTS 2024 5TH GLOBAL CONFERENCE

CATCHING THE WAVE OF REGENERATIVE THERAPIES

AUGUST 8-11, 2024 | SAN DIEGO, CA

## DEAR INDUSTRY PARTNERS

On behalf of the San Diego Academy of Regenerative Therapies (SDARTs), I invite you to become an Industry Partner of the SDARTs 5th Global Conference. Our conference is designed to bring together multi-specialty practitioners and industry partners who are enthusiastic about the promise of clinical advancements in adipose regenerative therapies. I've selected our faculty based on their expertise in this emerging field and their exceptional teaching skills. They will speak on the latest innovations in regenerative medicine explaining clinically proven step-by-step protocols that ensure reproducibility in clinical practice. In addition, the faculty will cover the most current science behind regenerative therapies as well as promising new applications.

More importantly to you, as you consider becoming an Industry Partner, is that the faculty of our 5th global conference demonstrates the caliber of pioneers who are eager to share their expertise with the attendees. These well-respected speakers will engage with industry and participants in an intimate setting on the UCSD campus at the Center for the Future of Surgery.

I recognize the significance industry plays in adding to the value of a conference like this. It's important to me to assemble the best and the brightest Industry Partners who not only make it easy for practitioners to access the products and services that are of highest value to them, but also to provide a forum where Industry and Practitioners can collaborate to advance the field of regenerative medicine. This is where true innovation happens. I invite you to consider joining us at SDARTs 2024.

Sincerely,

*Ms. Marcille Pilkington*

**Founder & CEO**

# THE SAN DIEGO ARTS 5TH GLOBAL CONFERENCE: CATCHING THE WAVE OF REGENERATIVE THERAPIES

Showcase your products and services to a global community of multi-specialty practitioners, industry leaders and cutting-edge researchers with a passion for the regenerative capabilities of adipose tissues, PRP, and Energy Devices. SDARTs 2024 features engaging presentations curated to focus on the latest clinical applications in:

## Office-Based Regenerative Aesthetics

- Hair, skin, face, breast, body, hands, intimate female rejuvenation, male enhancement, and scar revision

## Plastic, Cosmetic, and Reconstructive Surgery

- MACS facelift, SMAS facelift, composite breast augmentation, breast reconstruction, and body sculpting

## Regenerative Healing and Restoration

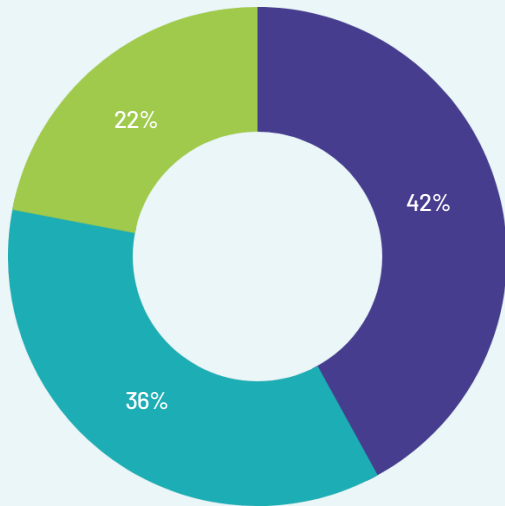

- Orthopedic and sports medicine, podiatric applications, urological procedures, and wound healing

## THE 2024 CONFERENCE OVERVIEW

- 3-days of didactic sessions with dynamic panel discussions and generous Q&A sessions, Thursday afternoon August 8th through Saturday August 10th
- One full day, Sunday, August 11th - interactive cadaver demonstrations and labs, plus a marketing seminar "Strategic Marketing for Regenerative Therapies"

# WHY CHOOSE THE SDARTS CONFERENCE?

## SDARTS ATTENDEE DEMOGRAPHICS

- 42% Plastic and Reconstructive
- 36% Office-based Aesthetics
- 22% Regenerative Medicine

- All Breaks, meals, and the Welcome Reception are in the exhibit hall.
- Break times in the exhibit hall are never cut to save time on the program.
- Each exhibit table has access to free electricity (standard outlets)
- Exhibitors are welcome to attend the scientific sessions.
- Meals and breaks are provided to exhibitors.
- The intimate university setting keeps the doctors at the venue all day.
- Physician attendees are primarily private practice decision-makers.
- You are free to demonstrate your products.
- Additional opportunities exist: You can support a scientific presentation, cadaver labs, live patient demonstration, or the faculty dinner.
